January 31, 2012

### Bulletin 02-2012 MI Industry Reporting Template Deadline Extension

#### Mortgage Insurance Industry Extends Deadline for Initial Report Delivery

All mortgage insurance companies began supporting and receiving the new **MI Industry Reporting Template** in October of 2011. However, some Servicers have asked for additional time to complete required programming. To accommodate these requests, the MI Companies have extended the deadline for when Servicers are required to begin using this template from the January 2012 monthly reporting cycle to March 2012, which will be delivered in April 2012.

Full adoption of the new template remains dependent on MI Approval. Servicers must continue to provide all existing workout reports until the MI Companies notify you that the existing reports are no longer needed. Each MI Company will have a separate approval process and will provide guidance on when you can stop providing existing workout reports to their company.
